Dear Hiring Manager,

With over **10 years of hands-on experience** in the IT industry, I have successfully contributed to the **end-to-end development of modern web and mobile applications**—from architecting front-end interfaces to deploying full-stack solutions in cloud environments. At **TwentyTwo Tech Sdn Bhd**, I played a **pivotal role in launching 20+ software products**, directly supporting the company's growth and generating **millions in revenue** through scalable, user-centric digital solutions.

As a results-driven developer and system architect, I am now seeking a new challenge where I can continue to **innovate, lead, and add value** to a progressive technology team. I bring a **deep understanding of scalable architecture, modern frameworks, and business-focused development** that can help drive success in any digital initiative.

Core Competencies & Technical Expertise

- **Front-End:** Flutter, Angular, React, Next.js, Bootstrap, Odoo
- **Back-End:** Node.js, Express.js, NestJS, Java (Spring Boot), Odoo API
- **Databases:** PostgreSQL, Oracle, MySQL, MongoDB
- **Cloud & DevOps:** Docker, AWS (EC2, S3, Lambda, Route 53, Load Balancer, Auto Scaling), DigitalOcean, Heroku, Vercel, WHM, cPanel
- **Version Control:** GitHub, Bitbucket
- **Domain Experience:** SaaS Platforms, eCommerce Systems, Booking Engines, Product Loan Management, Property & Rental Management, POS Systems, Student Application Portals, Tracking Devices & Location-Based Systems, ERP & CRM Solutions,
- **Project Management Tools:** Jira, Slack, Hipchat,

What sets me apart is not just my technical capability, but my ability to understand business goals and translate them into working products that are scalable, maintainable, and aligned with user needs. I am particularly impressed by your company's vision and would be excited to contribute to its continued success.

Thank you for considering my application. I welcome the opportunity to further discuss how I can bring value to your team.

Sincerely,

Nesar Uddin
